IMAM ABDULRAHMAN BIN FAISAL UNIVERSITY Webinar Series for the Enhancement of Quality Skills

Assessment and Learning Outcomes during COVID-19

Dr. David Smith
Professor
Rinker School of Business
Palm Beach Atlantic University

" I believe there are three levels of impact on higher education during COVID-19: institutional, program and course level. Each level has its unique challenges and all must be addressed in concert in order for the university to move in a cohesive and deliberate direction. Resources need to be made available, including the heightened importance and increased budget of the technology department. Faculty, students and staff need to know/see that the university is committed. "
